Spray Painting the Carceral Maze of Bureaucracy

I've been stress-testing the planet's renovated temporal plantation with my multidimensional depth perception. I have observed semantic obfuscation, symbolic insurance, and psychological enclosure as mechanisms that induce epistemic submission.

Our war is perceptual. Psychiatry is a *colonial enterprise* that presumes reality is a patent that can be arbitrated by its weapons of diagnostic and chemical occupation. This violation of the 4th amendment is blasphemous.

Tragically, the barbarism of the Spanish Inquisition, caucasian cannibalism, rape as a sport, and ubiquitous sadism have merely become more organized and hypernormalized through its corporate assimilation.

The act has merely changed its wardrobe,
but the scene is impeccably consistent.

Yawn.

Investigatory Frame of Mind

If **Gail Wolsk's** team was in discussion with Program Director Sharoya Assent-Herman and Regional Director Zakeeyah Wortham, both of whom were named in my June **2nd 2025**, grievance complaint, on **June 17th 2025**, while I was involuntarily held against my will as I sought advocacy and medical assistance from NYP Weill Cornell's Emergency Room with elevated creatinine and white blood cell levels, what's the *likelihood* that **Gail**, a **Senior Director of Housing at DOHMH**, had no awareness of my psychiatric detention?

If I were to receive an email from Nikki Grant, a vice president of Services for the Underserved, on June 19th, when I was due to be released from a 14-day involuntary hold on June 20th, to attend a Monday meeting, to discuss "*a complaint made to DOHMH*," what's the *probability* that S:US was unaware of my psychiatric detention and probable state of traumatic stress?

If S:US conducted a Wellness Check on August 11th, the next business day after I did not attend the 8/8/25 PCP appointment scheduled without my consent by NYP Farrell Clinic Social Worker Julia Ann Blum, how *plausible* would it be for the Support Staff of S:US employed at Dorothy McGowan Residence to be uninformed of my 14-day involuntary psychiatric detention?

Would that make the subsequent unfolding of non-responsiveness, from the 7/28/25 HPD-issued Subsidy Pre-Termination and the 10/23/25 backdated, baseless Abatement letter, seem convincingly aligned with the sentiment of Peer Specialist Nakida Marryshow's email, which stated DOHMH had informed S:US that I was considering relocation?

If I were never provided clarification on how this fabrication of a narrative was constructed, and my Grievance Complaint has circulated through oversight agencies for over a year, would my experience of psychological torture facilitated by a

bureaucratic maze in which my emails CC'd and BCC'd dozens of people justify a theory of coordination?

On June 12th, 2026, coordinated interagency retaliation *feels* criminal. And if I am a disabled person who sought boundaries to protect my mental health, would the conduct of interagency administrative assault be especially egregious?

Am I postulating about the impact of a collapsing government within a failed state? Is Democracy an apparition? Is my belief in justice a delusion? Is drapetomania my resting place?

Prophylactic Canary

Democracy and its structural tentacles assemble propagandized rhetoric that engineers our trust in institutions and their branding, but the architecture lacks solvency, accountability, and integrity.

Procedural unintelligibility is a smokescreen for the foundational fraud of material inaccessibility of civil liberties as a proprietary element of Democratic systems, which is a drag show for Professionalized Colonialism.

You may separate the church from the state, but you cannot separate the state from the bank. *If you don't fund it, it cannot be realized.* **That's epistemological deception.**

If your liability protection incentivises sadism while averse to ethical coherence, procedural unintelligibility becomes the mascot for bureaucratic sadism.

Attrition is wielded to facilitate
a mechanized denial of constitutional rights.

RICO Questionnaire

If Services for the Underserved provides federally funded housing for about 37,000 New Yorkers, can the **Department of Health and Mental Hygiene** be compromised in its ability to manage institutional abuse by service providers when the fiscal incentives for liability containment are substantial?

**NYP | S:US | HPD | CLOTH | DOHMH
| NYPD | Concord**

06/02 & 06/04/25: I sent my Grievance Complaint to multiple channels of Oversight email addresses. – **Pure Crickets, ghostmode.**

06/06/25: Despite having acute elevation in both Creatine levels and White Blood Cells, my request for advocacy funneled me into an interaction with Psych, then Isabelle Hashim and Maria DePena-Nowak declared a psych-hold required. Although I had a laminated 88-page double-sided

documentation of chronological archive of institutional abuse, I didn't stand a chance of being helped.

06/28/25: Why would NYP send their Mobile Crisis Team to my residence three consecutive days and leave an **8/8/25 PCP appointment** on my door? I did not miss any appointment, as I verbally declined outpatient treatment with Athena Clinic, when they called to reschedule. I only agreed to the appointment because SW Angelina Hofstede said **I had** to sign appt documents to be released from the psychward; but if I chose not to go....

07/14/25: Why would New York-Presbyterian ignore my request for discharge paperwork from their Medicaid Farrell Clinic for over six months? I had to disenroll from Medicaid for existential concerns.

07/28/25: Why would HPD request nonessential documents and, even after receiving them, issue a subsidy Pre-termination letter?

08/11/25: Why would SUS complete a wellness check, by instructing the front desk to buzz my intercom, and refuse to state... What agency issued the wellness check? Particularly because no one had consent, not even SUS, to be in any form of correspondence regarding my personhood.

08/21/25: Why would Nefta Sterling, Manager of Compliance at Concord Management of New York withhold and refuse my lease renewal. Then inform me that I didn't have a lease for the prior two years, when in fact I did? What exactly is going on with their documentation? **Audit Flag.**

08/22/25: Why would HPD have mold complaints listed among the concerns addressed by its agency, but when HPD inspected my apartment, I was told they do not test for mold?

10/04/25: Why would Concord Management of New York, whose building manager, Rocio Frias, has stonewalled me since I declined illegal floor repair in August

of 2024, contact HPD and request that they complete an unannounced inspection under unstated reasons on October 4th, 2025?

10/22/25: Why would I receive a backdated, baseless HPD-issued abatement letter that was inoperable?

11/17/25: Why would SUS peer specialist Nakida Marryshow email me, stating that DOHMH informed SUS that I was considering relocation, and share a link to Housing Connect, whilst CC'ing the three employees whom my grievance complaint named as harmdoers?

12/20/25: Why would NYPD knock on my door at 10:46pm on a Saturday? Initially, a noise complaint was the cause for their suspicious appearance, which was improbable because my volume was moderate and it wasn't yet quiet hours. However, when I corrected them, the narrative changed to an Emotionally Disturbed Person concern. Additionally, I disenrolled from Medicaid about two days prior. The timing was **curious**.

12/23/25: After I queried the DOHMH information shared with SUS regarding their fabricated narrative of my relocation consideration, I named Gail Wolsk in several ignored or deflected emails that were cc'd to all five agencies. I then received a letter from Gail Wolsk in the mail telling me to, essentially, call 311 and run in a death spiral? Whilst omitting that DOHMH engaged in interagency discussions regarding my complaint, as early as June 17th of 2025, Gail neither contacted me nor acknowledged receipt of my grievance complaint before she mailed the letter.

1/28/26: Why would Bianca Lopez, a Tenant Coordinator for Community League of the Heights, inform me that I must remove my door bolt for the backdated, baseless HPD-issued abatement letter to be *possibly reviewed?*

04/09/26: Why would I request the 2026 Recertification Package from Concord Management of NY after they didn't attach it in the email confirming my income documents had been received, and instead,

I acquired an HPD recertification for a tenant living in Unit 3C? The package was not only past due; it was blank, but it had the tenant's name, Social Security number, and his signature. The packet was in English. This individual is a Spanish speaker. Why would Concord have such documentation for HPD, and why would I gain possession of this HIPAA violation? I have yet to receive my 2026 Recertification package from Concord Management of New York.

06/11/26: My grievance complaint remains unaddressed. I fear the system is behaving reflexively within baseline dysfunction.

Experience is an Experiment

I query the bidirectional relationship between psychological processes that become social structures and social structures that become psychological processes.

This social phenomenon is a petri dish for the mutation of social pathology, for which I seek to build a lexicon to diagnose procedural opacity as an engineered mechanism for the proliferation of sadism.

Cross-Examination

Gail Wolsk,

I understand that you are currently employed as a **Senior Director of Housing** in the *Office of Housing Services*, which is a state-funded program within the **Department of Health and Mental Hygiene**.

Per your letter, which is dated December 23rd, 2025, you stated that my original grievance complaint was received by email from the **State Office of Mental Health**. That email was sent on June 2nd, 2025. However, your letter was mailed to me after several emails were sent to **Services for the Underserved, Concord Management of New York, Housing Preservation and Development, and Community League of the Heights**, in which I requested clarification regarding an email sent by Peer Specialist Nakida Marryshow. In her unprompted email sent on November 17th, 2025, she stated that **DOHMH** had

informed **SUS** that I was considering relocation.

I subsequently sent four emails dated 11/18, 11/19, 12/2, and 12/3, requesting clarity on the production of this fiction and an update on my grievance complaint. In the last email, I diagnosed you, Gail Wolsk, as the culprit of this fictitious claim. Precisely because Geran Montpleaise, the Manager of Incidents at S:US, informed me that, per my request on August 20th 2025, the third-party oversight contact that would be involved in reviewing my grievance complaint would be you.

Subsequently, I have received FOIL documents that verify interagency discussions regarding my grievance complaint occurred. However, between June 2nd, 2025 and December 23rd, 2025, I was never contacted by **DOHMH** or informed that my grievance complaint had been received, despite being the topic of interagency discussions.

Most destabilizing is in your letter dated 12/23/2025, you stated:

“We recommend that you work with SUS regarding the resolution of the HPD abatement as well as your grievance and to address any other further concerns with your housing provider. If your concerns are not being addressed by **SUS**, please contact 311 and inform them it is a supportive housing concern, and those concerns will be forwarded to **DOHMH**.”

Ironically, your letter was precipitated by emails no agency responded to, in which all parties were able to see the email thread recipients, which included the executive board of S:US.

Despite my ADA request to only communicate through written emails or letters, being approved by Senior Vice President Thea Jandzio on August 26th, 2025, my emails have been privy to chronic non-responsiveness.

Which leads me to a single inquiry:

Gail Wolsk, how would **you** define psychological abuse, administrative obstruction, or, perhaps, deliberate negligence?

decorum seems grave.*

The Sequence Cooks Evidence

If a grievance complaint is submitted, but the complainant is never contacted, and the following activities unfold within six months:

Pre-termination Letter issued by HPD,
Lease withholding by Concord Management of New York,
and an Abatement Letter issued by HPD,

All three of these mechanisms serve to destabilize housing security and expose the complainant to constructive eviction, whilst the grievance complaint remains unaddressed a year after its submission.

Due to the extended period of non-responsiveness exhibited by DOHMH, it is fair to assume there was no intention of resolving the grievance complaint.

Therefore, Gail Wolsk:

IF an official abatement action was knowingly used as retaliation against a protected grievance activity, should that precipitate federal jurisdictional oversight for intervention?

I smell RICO. It's a strong stench.

I don't have a crystal ball, but I feel the proof is in the pattern.

I'm amenable to contract work.

Dear Dr. Alister Martin,

As the **Commissioner of the New York City Department of Health and Mental Hygiene**, I am bereaved to inform you that the systemic assault of retaliatory attrition, through chronic neglect, that I have endured over the past year is a pervasive pattern of bureaucratic sadism.

Although my vocation is self-directed, as a **Certified Recovery Peer Advocate** who has actualized recovery, I have learned that boundaries are not appreciated within Carceral Supportive Housing Systems. The Dorothy McGowan Residence is staffed by **Services for the Underserved**. As a result, my housing stability was threatened by Program Director LMSW Sharoya Assent-Herman; it was quite the flying-monkey situation, in which the Executive Board of S:US did not respond to my grievances in August of 2024.

By June of 2025, I found myself dealing with the convergence of environmental

concerns that HPD refused to test, including the air quality index and mold. I was denied a window screen by the Regional Director, Zakeeyah Wortham, and I've been completely ignored by Concord Management of NY's building manager, Rocio Frias.

In August of 2024, I declined the installation of new tiles applied onto old tiles. I believe this chafed Rocio because she has been non-responsive to any of my building concerns.

Although I submitted a grievance complaint several times in June of 2025 and DOHMH conducted several interagency discussions with S:US regarding my complaint, I only experienced three attempts at constructive eviction, while my personhood has not been addressed.

Innumerable questions have gone unanswered. Many of which would corroborate HIPAA violations and bad faith acts. I feel the level of psychological abuse that I have withstood invariably meets the

threshold for **criminal neglect**, particularly as a person living with disabilities in a federally funded residence. Many of these licensed institutional actors are overwhelmingly aware of my social and psychological history, and therefore, I truly believe that they need to be subject to licensure revocation.

Forensically speaking, I believe the departure of four employees from S:US who were in correspondence with DOHMH regarding my grievance complaint requires investigation.

HPD and Concord Management of New York have exhibited justifiable procedural discrepancies and HIPAA violations to warrant a three-to five-year retrospective audit.

Aside from the Dorothy McGowan Residence being a mold-infested building, with horrible air quality, and obviously overpriced and mismanaged, I understand that you oversee an annual budget of \$1.6 billion to run your department.

Fiscal responsibility requires accountability. **Gail Wolsk needs to be investigated promptly.** The third attempt at constructive eviction was orchestrated through **an abatement letter issued by HPD under the direction of Gail Wolsk.**

Crisscross Chronology

Yanneska Quezada,

If on July 2nd and September 24th you documented unambiguous concern regarding the details of my grievance complaint with your colleagues, why would **Gail Wolsk** send me a letter on December 23rd that seemingly disacknowledges any awareness of the gravity with which your emails maintain regarding my complaint?

I'm air spitting:

If **Dr. Jonathan Kamler, Dr. Isabel Hashim, Social Workers Noreen Wohl and Julia Ann Blum**, all of whom are employed by New York Presbyterian Hospital, in addition to HPD Case Manager **Robert Schwartz**, acted in coordination of harm and suppression, might these individuals have received, I don't know, a form of communique? **June 2025 was the Siege.**

I mean, the thing about retaliation is that it can be opaque. What we do know is that **Gail Wolsk** works for the **Department of Mental Health and Hygiene** as a Senior Director of Housing. However, I'm not entirely clear what level of **access** she has to my medical and social service records as a former recipient of **Medicaid HARP** and a tenant of **Shelter Plus** permanent supportive housing.

What I do know is that your email correspondence and her letter do not derive from the same **theater of reality**. I also know that since December 2025, *Program Director Sharoya Assent-Herman, Regional Director Zakeeyah Wortham, Peer Specialist Nakida Marryshow, and Senior Vice President Thea Jandzio* are no longer employed by Services for the Underserved.

And although I sent emails to the President/CEO of Services for the Underserved, **Peter Perlmutter**, both his work and personal email, through a quick Google search, I

haven't heard anything. And even though I submitted a complaint to the Department of Justice, I haven't heard anything. HUD stated that its agency lacks the legal authority to investigate my allegation because it did not comport to the *Violence Against Women Act*. **YIKES!**

Yanneska, the reason I am directing this line of rumination to you is that I suspect that you're relatively new to the DOHMH job. After working at **Bridging Access to Care**, I can viscerally fathom the level of sadism that keeps bureaucracy entertained. As a **Mandated Reporter**, I made complaints to the **Justice Center** regarding psychiatric prescription abuse that was contraindicated, and therefore heinously negligent.

For that reason, I'm not entirely sure that my retaliation experience doesn't have multiple vectors for opaque motives. I also had a grievance concern with Dr. Rebecca Leeds, a PCP at NYP, who seemed more convinced that "fatphobia" was a psychological fixation rather than a

metabolic emergency. This **licensed liability** wanted to prescribe me oral birth control when I had a BMI of 41, cycle-correlated endometrial pain, elevated prolactin, and insulin resistance.

But listen, I am, you know, I'm diagnosed with whatever they think is most billable and racially fitting for the, you know, quality of dehumanization that my personhood seems to be the receptacle for, by eugenic consensus.

*I say that to say,
I thank you for the earnestness

Retrospective Reconstruction

If **Debbie Modeste, Yanneska Quezada, Pilar Pardon, and Gail Wolsk**, all of whom are employees of **DOHMH**, were having interagency meetings with Services for the Underserved, between June and September of 2025 regarding my grievance complaint, which I submitted **four** different times to three different agencies, would it be fair to assume that when *Peer Specialist Nakida Marryshow* sent the email on November 17th 2025, stating that **DOHMH** informed **SUS** that I would be considering relocation, when I had received no correspondence since the final submission of my grievance complaint on August 20th of 2025, that my personhood was decentered in this process?

In retrospect, would it be strange to reconstruct the timeline and realize that **HPD** was adamant about executing an administrative revocation of my voucher in

July of 2025, to the extent of issuing a pre-termination letter without cause?

Would it also be within a reasonable scope to assume that Concord Management of New York ignored my emails for two months, with probable incentive? During that time, **HPD** requested a plethora of non-essential documentation, whilst Concord Management of NY further sought to deny my access to a renewed lease. And lastly, to have received a baseless abatement letter that was backdated to September, but I received it on October 26th of 2025, about three weeks prior to Nakida M a r r y s h o w i n f o r m i n g m e that **DOHMH** informed Services for the Underserved that I was considering relocation.

Mind you, **DOHMH** never contacted me regarding my grievance complaint. Therefore, how could they speak on my behalf unless, **of course**, they were instructing institutional actors to funnel me into a relocation?

In what reality is an abatement letter the consideration for relocation for an individual who submitted a grievance complaint?

I stand a year out from the submission of a grievance complaint that has **never been addressed.**

Presumably, the Department of Health and Mental Hygiene greenlighted the processes that converged as three attempts at constructive eviction. Why else would **Robert Schwartz and Ebony Williams** of Housing Preservation and Development, along with **Nefta Sterling** of Concord Management of NY and Services for the Underserved, feel so **confident** in aggressing my humanity?

My most pressing query is who did **DOHMH** choose to protect? After all, there were interagency meetings regarding my case. I was explicitly told by Peer Specialist Nakida Marryshow that SUS was informed by DOHMH that I was considering relocation.

The implication is that my safety was **never** a concern, only my **silence**. Whereas my abusers, **Sharoya Assent-Herman, Zakeeyah Wortham, Orlando Luckey, and later Nicole Grant**, were enabled and protected. Abductively speaking, my mental health was targeted for decompensation, and the diagnosis was exploited to destroy my credibility and nullify my humanity.

In conclusion, fuck feminism! My experience with Sharoya Assent-Herman was giving Single White Female, and every government-funded institution I sought support from to aid in my self-advocacy gave me dust.

I felt the temperature shift when I guessed your age on your birthday. And although I understand that I perceived a ripeness in you, that I couldn't fathom under 50, you were indeed on your last stair before 50.
